

Reception counter

Tresta

Design: Piotr Kuchciński

A variety of materials and fabrics, wide array of colours and textures as well as contemporary design contribute to the special character of Tresta reception desks. This unconventional system, due to its modularity and a possibility to obtain unrestricted combinations, colours and technologies of fronts finishing, will permit to create an individualised and remarkable design of the reception area. The unusual ergonomics of the system is enriched by mobile shelves and upholstered panels.

FUNCTIONAL FEATURES:

- the possibility of delivering dismantled counters optimizes transport costs and allows access to hard-to-reach rooms
- possibilities of combining different colors and even finishing technologies for counter fronts
- additional functionality is provided by the interior elements of the counter: mobile document shelves and upholstered panels
