

Bar stools and stools

Huga

design: Maja Ganszyniec Studio

Huga is a collection of versatile stools and bar stools designed for dynamic spaces. They feature a minimalist design, with functional handles integrated into the frame playing a key role. Huga offers high user comfort and extensive customization options thanks to a variety of seat finishes and two base variants – elegant skid bases or practical legs with castors.

KEY FEATURES:

- **Versatility:** available as a stool and bar stool, ideal for diverse spaces.
- **Functionality:** Integrated handles that facilitate carrying and enhance stability.
- **Comfort:** Ergonomically designed, with an option for upholstered seats and a footrest.
