

Storage system

Qore

Design: Piotr Kuchciński, Balma Design Team

Qore is a modular system of cabinets and shelving units designed to organise office space. It combines minimalist design with functionality and flexibility to create a cohesive, ergonomic work environment. It enables a wide range of configurations—from lightweight shelving units to high-capacity cabinets, including desk cabinets and under-desk cabinets.

- Tests in accordance with PN-EN 14073-2:2006, PN-EN 14074:2006, PN-EN 16121+A1:2017-11 and PN-EN 16121:2024-05, confirming safety, stability, strength and durability of the structure. Qore meets the requirements for furniture used in office spaces and under intensive use.

FUNCTIONAL FEATURES:

- Wide range of modules: heights (from 1 to 6 OH), widths (from 20 to 160 cm)
- Easy fit for any space: open space, conference room, private office, welcome area
- Extensive selection of elements: cabinets, shelving units, top cabinets, plant box, drawer cabinets, desk cabinets and under-desk cabinets, as well as wardrobe cabinets
- Multiple base options: feet, plinths, bases on high legs, or mobile bases on castors
- Four front options: hinged doors, sliding doors, tambour doors, and drawers
- Security options: mechanical locks and electronic card locks
