

Modular shelf

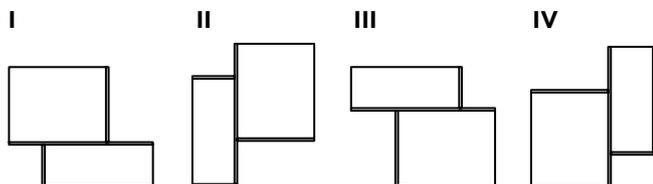

Crox

design: Piotr Kuchciński

Modular shelf for hanging in various configurations. It is a practical and functional form that intrigues with its multidimensionality and arrangement possibilities. When combined with each other, the shelves create light and eye-catching modular systems. The shelves are made of varnished MDF board or melamine board. Thanks to the rich colors and combination of settings, it is possible to create an original and aesthetic element of the interior.

M2-01 65/55/26,6
