

Executive office collection

IN

design: Piotr Kuchciński

The iconic set of the IN executive office furniture collection, which has remained popular in Balma for almost 20 years, has been gaining a new look. A novelty is the option of black anodized aluminum, which is an interesting alternative to the standard natural color. Cabinets and chests of drawers mounted on aluminum bases and supported on high legs have gained a new lightness and modern expression. Table tops are made of modern materials, thanks to which they are thin and visually light, yet durable. The collection includes tables, free-standing desks and desks supported on cabinets, as well as low and high cabinets - all in a new version.

FUNCTIONAL FEATURES:

- a simple, timeless form that has been awarded and distinguished many times
- visually light design of desks and tables
- a unique form of the frame, changing depending on the adopted perspective

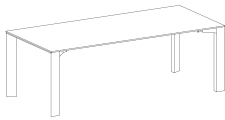

TABLES AND DESKS

- 12 mm-thick table top: natural veneer, compact laminate or quartz conglomerate
- trapezoidal leg profile
- heights of tables and desks: 74 or 78 cm
- anodized aluminum frame and legs - natural or black
- leveling feet in the range of 10 mm
- front shields: natural veneer or MDF varnished

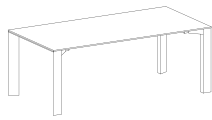

CABINETS

- body and fronts: natural veneer or MDF varnished
- glass fronts in anodized aluminum frame
- two versions of the base: a plinth with tubular legs or a plinth
- media port and cable management option in cabinet for supporting desk
