

Desk with electric height adjustment

## Sit&stand Plus

design: Piotr Kuchciński

Sit&stand Plus is a system that takes into consideration not only functionality, but also activity we have created a line of desks which can be electrically adjusted. They can be operated directly from your computer or mobile device. Thanks to Desk Control App, your desk is not only going to remind you that you should change your body posture at given intervals, but it can also register the statistics of your activity.

### FUNCTIONAL FEATURES:

- desks are suitable for creating double and bench workstation
- possible to install walls and accessories
