

Cabinets

J_system

design: Piotr Kuchciński

J_system cabinets and shelves create a comprehensive solution for storing documents in the office. It is not only a practical solution, but above all safe, because thanks to the possibility of closing the door with a lock, it enables the protection and confidentiality of important documents. A wide range of accessories ensures full comfort of use and functionality, meeting individual requirements. The wardrobe system consists of file cabinets, wardrobe cabinets and shelves. Cabinets can be equipped with board shelves, metal shelves with the possibility of hanging files, filing frames, drawers and pull-out shelves. Available types of doors: full, sliding, shutter (horizontal and vertical).
