

Tables and desks

Simplic

design: Piotr Kuchciński

Simplic office furniture is characterized by a unique and elegant style that perfectly harmonizes with the multitude of their applications. The Simplic collection includes single conference tables of various shapes and dimensions, modular conference tables, office desks, cabinet-supported executive desks and low coffee tables. With a wide range of finishing materials and practical accessories, Simplic furniture can be easily tailored to individual functional and spatial requirements. Simplic furniture works excellently in offices, conference rooms, and open office spaces.
