

Acoustic booths

Bbox

design: Piotr Kuchciński

The BBox acoustic booth from Balma is an essential element in large offices. It allows you to talk in silence, without disturbing other employees, while ensuring comfortable conditions thanks to the spacious interior with excellent acoustics and ventilation. In addition, the unique appearance of the acoustic booth allows you to adapt it to individual needs, and a wide selection of materials and colors give it character. Glazing enhances the impression of space, which increases its functionality and aesthetics.
